- Conclusions

* **Instead of** – The Steering Committee is composed of 7 to 9 Members, as follows:
a representative of the Member who hosted the previous General Assembly
a representative of the Member who will host the following General Assembly
Members elected by the General Assembly, half of whom must be renewed every two years. The election is by absolute majority of those present at the Assembly,

The Proposed version is:

The Steering Committee is composed of representatives of 12 Member Academies, including:
a representative of the Member who hosted the previous General Assembly,
a representative of the Member who hosts the current General Assembly,
and a representative of the Member who will host the following General Assembly.

Members are elected by an absolute majority of those present at the General Assembly. One third of whom are renewed every two years (1). A renewable member may be candidate to re-election. The President's vote counts double in the event of a tie.
