

INFORMATION

*on UEAA activities during the period June–September 2026
-presented at the UEAA Steering Committee, 21 September 2026, Tirana, Albania-*

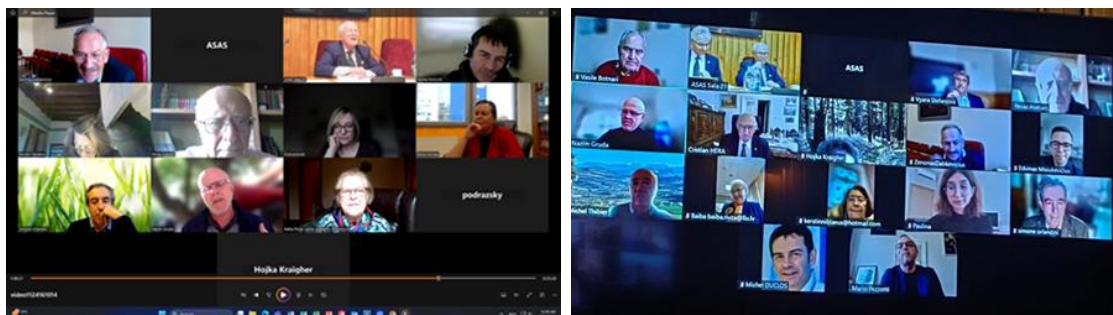

Among the most important actions carried out during this period, we mention:

- A meeting of the UEAA SC took place on June 11, 2026.
- Drafting and publication on the website of the statement: "UEAA Welcomes the Adoption of the EU Regulation on New Genomic Techniques," June 18, 2026.
- At the initiative of Michel DUCLOS, an **Abstracts e-book** entitled: "The UEAA Best Abstracts Scientific Competition for 2025" was created and posted on the UEAA WEB page, including all the abstracts submitted within the "Best Scientific Abstract Competition, 2025-2026 edition".

- Edition of the Volume: "New Research Techniques and the Agricultural Progress"-Proceedings of the International Scientific Symposium, associated with the 12th UEAA General Assembly, Bucharest, Romania, 10-11 October 2024, edited by Ioan JELEV and Cipriana BUDEANU.
- We also mention that during one of the UEAA SC meetings on 11 June 2025, a debate was organized regarding an Own budget for UEAA, however, it is considered that it is still early to decide in this regard.
- Three UEAA newsletters have been produced and published on the UEAA website: "Current issues in Poultry Sciences and application to the French Poultry Sector" by Michel DUCLOS; "Recent developments in cropping systems and the use of cover crops" by Simone ORLANDINI, Marco

NAPOLI, and Antonio PESCATORE; and "Current issues of agriculture in Slovakia" by Elena HORSKÁ. A fourth newsletter, titled "Measures to increase the resilience of agricultural farms with declining fertility", is currently being prepared for September 2026, by AAFS Romania.

- Information on the webpage regarding the UEAA Presidency and Vice-Presidency over time has been updated, and a photo gallery of former UEAA Presidents has been added as a new feature.
- Organizational activities took place in preparation for the 13th UEAA GA, SC, and associated Symposium meetings in Tirana, Albania, 21-22 September 2026, under the coordination of Vice President Nazim GRUDA, in correlation with UEAA SC (finalizing the Program and its annexes, detailing the agenda of the General Assembly and the UEAA SC, as well as the topics for the Scientific Symposium – “Sustainable European Agriculture and Balanced Management of Natural Resources,” etc.).
- Drafting reports and supporting materials regarding: UEAA activities from October 2024 to September 2026; UEAA activities from June to September 2026; a brief overview of the scientific work of Acad. Nazim Gruda for his nomination as UEAA President; the UEAA President's welcome address at the General Assembly; the proposed UEAA Action Plan for 2026-2028 (Nazim Gruda in collaboration with Simone Orlandini) etc.
